

BUDDSTEEL
ARCHITECTURAL PRODUCTS LTD

Metal Locker With Solid Phenolic Locker Door

Product Specifications

1. Manufacturer

Locker doors shall be manufactured by **Buddsteel Architectural Products Ltd.**, a Canadian manufacturer specializing in architectural locker and partition solutions.

Locker bodies shall be manufactured by Anthony Steel Manufacturing, a Canadian manufacturer specializing in custom storage solutions.

2. Materials

- Metal locker bodies shall be fabricated from 24 ga cold rolled steel. 16 ga frames are resistance welded on all four corners to form a rigid structure. Single tier lockers include one hat shelf and 3 coat hooks. Double tier, triple tier and portoclub lockers include 2 coat hooks.
 - Doors shall be constructed of solid phenolic material with a decorative surface finish and a Class A fire rating suitable for school hallway installations.
-

3. Fabrication

Locker Construction

- Metal lockers shall receive a proud mounted solid phenolic locker door. Doors shall include a continuous hinge, padlock style locking and one number tag.
 - Locker options: 4" recessed metal base, 6" metal sloping top, dress end panels, cylinder lock or thumb lock.
-

4. Colour Selection

- Metal locker body colour shall be selected from the standard Anthony Steel Manufacturing range. Solid phenolic locker door colour shall be selected from the current Buddsteel range.
-
