Buddsteel STREAMLINE Locker Doors

(Particleboard core)

Materials:

- Locker doors shall be as manufactured by Buddsteel Architectural Products Limited
- All doors shall be constructed of a decorative special grade fire-retardant particleboard core as required for school hallway installations meeting the CAN/ULC-S102 standards

Fabrication:

Doors: Locker doors shall have a finished thickness of 3/4" and be constructed with a durable decorative surface. Edges shall be finished in black or a matching colour.

Doors shall be single tier unless advised otherwise.

Hardware: Each locker door shall receive a specially designed continuous hinge, a factory installed black nylon pocket (suitable for padlock style locking) and a reverse engraved black plastic number tag.

Mounting Style: All Streamline doors shall be proud mounted onto the locker frame. Doors will extend 1/2" above and below the locker frame opening.

Standard Colour: DIVA – a light neutral colour with a wood grain
Custom colours available for large orders (1000 + doors)

Installation - On Existing Or New Locker Bodies

- New streamline locker doors shall be secured onto the locker frame with pop rivets and self tapping screws. Hasps shall be installed with two self tapping screws.
- Doors shall be installed true and plumb by installers specifically trained to do this type of work.
- Number tags shall be installed as per the provided layout.
- All areas shall be left in a neat and tidy state upon completion.
