

Specification Information

Product Code: 150

Product Name: Double Roll Toilet Tissue Dispenser

Individual Carton UPC: 624622150006

Individual Carton Shipping Dimensions: 7.6cm H x 29.2cm W x 11.4cm D (3" H x 11 1/2" W x 4 1/2" D)

Individual Carton Shipping Weight: 1.0 kg (2.2 lbs)

Site Location: Frost's 150 double roll toilet tissue dispenser is a high quality, durable and affordable product. This unit is ideal for areas requiring a heavy duty economical dispenser. Typically, the dispenser is used in schools/universities, restaurants, malls, office buildings, condominiums, fitness facilities, and recreation centres. The product's ease of use and maintenance make this unit a cost effective solution.

Features:

- Straightforward design makes this product user friendly and also reduces the risk of product malfunction
- Non-proprietary dispenser which can lead to cost savings for end users and property managers
- Toilet paper holder has concealed self-locking device to prevent pilferage and vandalism
- Front loading for easy service and maintenance
- Tension springs reduce paper consumption and stops free-wheeling

Dispensing: This product dispenses toilet paper manually. This dispenser is also non-proprietary; meaning, this product can dispense paper from any standard commercial paper producer. This allows the end user to avoid getting locked into paper supply contracts and should save them money on their janitorial supplies. The unit is manually operated and can be refilled by pressing the steel flap on the roll of the dispenser. The side of the unit will then pivot open and new tissue can be inserted.

Capacity:

- Frost code 150 will dispense all standard toilet tissue rolls including 10.7cm x 11.4cm (4" x 4 1/2"), 500 sheet rolls
- Capacity of two rolls per unit

Materials:

- The entire unit is all welded construction of 18 gauge steel
- The arms are hinged on hardened steel rivets
- The unit is finished in polished chrome

Specification Information

Product Dimensions:

- 7.0cm H x 27.9cm W x 11.2cm D (2.75" H x 11" W x 4.4" D)

Product Weight:

- 0.9 kg (2 lbs)

Installation Guidelines:

For unrestricted access, roll should be mounted at least 48.3cm (19") above the finished floor. This dispenser comes with two standard combination style screws. Mark mounting holes against the mounting surface using a pencil and level. Use a screwdriver or power drill to drill screws in the desired mounting surface and attach the dispenser. Please note that it is recommended that all installations be conducted by a qualified tradesperson. Please read and follow any additional installation guidelines provided with the products.

Maintenance: Normal preventative maintenance and cleaning will keep Frost products functioning properly and may extend normal product life. Products should be wiped down with a damp soft cloth periodically. Approved stainless steel cleaner may be used to clean scuffs or fingerprints on stainless surfaces. Do not use harsh detergents or chemical cleaners. For general dirt and blemishes on painted steel or plastic use warm water and mild soap, or a general mild cleaning solution. When using any type of cleaning solution, spray onto a discrete area to test before full usage. After the cleaning agent is applied, wipe off with a clean soft cloth or sponge.

Warranty: If any product or part proves to be defective within 12 months from date of shipment from the factory it will be repaired or replaced without any charge including freight costs when authorized. Costs resulting from the installation or removal of defective products are not covered under this warranty. Discolouration to stainless steel parts resulting from exposure to harsh environmental and / or chemicals are not considered to be defects in workmanship or material and are not covered under warranty.

1001-NP48" – 4.25lbs (1.9kg)

Site Location: Frost's 1001-NP series stainless steel grab bars offer a brushed and peened finish. These grab bars are stocked in various lengths and have a 1-1/2" diameter. Typically, these units are used in schools/universities, nursing homes, restaurants, malls, office buildings, condominiums, hospitals, recreation centres, and residential properties. The durable construction and high quality stainless steel make this unit a popular choice. The Frost NP grab bar series comply with handicap codes requiring 1-1/2" bar diameter and wall clearance of 1-1/2". Barrier free access specifications may vary depending on jurisdiction.

Features:

- Brushed stainless steel
- Peened grip
- Easy to install snap on flanges with concealed mounting
- Come in a variety of lengths

Specification Information

Materials:

- Snap flange is 12 gauge stainless steel with a full 360 degree bead weld to the 18 gauge stainless tubing. 1-1/2" dia. stainless steel, type 304, peened finish on bar.

Strength and Installation Warning: Frost grab bars that provide 1-1/2" (38mm) clearance from wall can support loads in excess of 900 pounds (408kg) if properly installed. Other grab bar configurations can support loads in excess of 250 pounds (113kg) if properly installed, complying with accessible design for structural strength. All grab bars must be installed by qualified trades persons. Installers must consult and comply with local building codes. Mounting hardware and other systems to be determined by contractor and installer pending specific structure, design, and conditions. All installations must be fully inspected and approved by property owners and maintenance personnel prior to bar being put into use. Failure to comply to proper installation procedure will void warranty and may result in malfunctioning or injury.

Product Dimensions:

1001-NP12" – 12"L x 3"D x 3.25"H (30.5cm L x 7.6cm D x 8.3cm H)

1001-NP18" – 18"L x 3"D x 3.25"H (45.7cm L x 7.6cm D x 8.3cm H)

1001-NP24" – 24"L x 3"D x 3.25"H (61.0cm L x 7.6cm D x 8.3cm H)

1001-NP30" – 30"L x 3"D x 3.25"H (76.2cm L x 7.6cm D x 8.3cm H)

1001-NP36" – 36"L x 3"D x 3.25"H (91.4cm L x 7.6cm D x 8.3cm H)

1001-NP42" – 42"L x 3"D x 3.25"H (106.7cm L x 7.6cm D x 8.3cm H)

1001-NP48" – 48"L x 3"D x 3.25"H (121.9cm L x 7.6cm D x 8.3cm H)

Product Weight:

1001-NP12" – 1lbs (0.45kg)

1001-NP18" – 1.5lbs (0.68kg)

Maintenance: Normal preventative maintenance and cleaning will keep Frost products functioning properly and may extend normal product life. Products should be wiped down with a damp soft cloth periodically. Approved stainless steel cleaner may be used to clean scuffs or fingerprints on stainless surfaces. Do not use harsh detergents or chemical cleaners. For stainless steel please do not spray with any product containing bleach, acids, or chlorides, which can be found in many cleaning products such as toilet bowl cleaners. Use of these cleaning solutions may cause discoloration and if used for prolonged periods of time they can eat away at points in the stainless steel. If discoloration occurs, the use of an approved stainless steel cleaner and a firmer scrub pad, such as a Scotch Brite Pad #7447, may remove the markings. Wipe away any debris from the area and gently rub with the pad. Then spray the area with a stainless steel cleaner/polish and rinse and dry. Always wipe with the grain direction for stainless steel products. If a cleaning agent has

Specification Information

Product Code: 1138-S

Product Name: Stainless Steel Robe Hook

Individual Carton UPC: 624622113803

Individual Carton Shipping Dimensions: 5.1cm L x 5.1cm W x 5.1cm H (2" L x 2" W x 2" H)

Individual Carton Shipping Weight: 0.22kg (0.5 lbs)

Site Location: Frost's 1138-S surface mounted robe hooks are often specified and designed for use in both commercial and residential settings. Typically, these coat hooks are used in schools/universities, recreation centres, hospitals, fitness facilities, office buildings, airports, and retail locations. This product offers a durable, professional, and easy to maintain solution for storing personal items.

Features:

- Easy to install and maintain
- Made from 16 gauge stainless steel
- Smooth burr-free edges
- Concealed mounting
- Provides clean and professional appearance

Materials:

- 16 gauge stainless steel, type 304 brushed finish

Product Dimensions:

- 5.1cm L x 3.9cm W x 5.1cm H (2" L x 1.6" W x 2" H)

Product Weight:

- 0.2 kg (0.4 lbs)

Installation Guidelines: Screw concealed mounting system: The mounting bracket is attached to the wall with screws at the desired height. The unit is then hooked onto the bracket. When the set screw is tightened the product is firmly secured to the wall. The set screw applies pressure to an inclined surface on the bracket this provides a rattle free and integral mounting of the product. (mounting bracket and screws provided).

Specification Information

Product Code: 708-A

Product Name: Universal Tank Type Liquid Soap Dispenser

Individual Carton UPC: 624622708009

Individual Carton Shipping Dimensions: 11.4cm H x 21.6cm W x 13.3cm D (4 1/2" H x 8 1/2" W x 5 1/4" D)

Individual Carton Shipping Weight: 1.1 kg (2.5 lbs)

Site Location: Frost's 708-A universal vertically mounted liquid soap dispenser offers a durable and practical solution for high volume areas. Typically, the dispenser is used in schools/universities, restaurants, malls, office buildings, condominiums, fitness facilities, and recreation centres. This product was engineered to be easy to use and maintain without sacrificing the strength needed to last in busy environments.

Features:

- Straightforward design makes this product user friendly and also reduces the risk of product malfunction
- Non-proprietary dispenser which can lead to cost savings for end users and property managers
- Easily accessible refill at the top with keyed filler cap
- Lucite soap level indicator window
- Durable construction of 20 gauge type 304 stainless steel
- Concealed mounting screws

Dispensing: Dispenses liquid soap at 10-20% solution as well as more viscous synthetic detergents, lotions, and antiseptic soaps. We do not recommend any soap types that have an ammonium based surfactant, ie. Ammonium Lauryl Sulfate, or chloride (Cl or NaCl) based solutions. Please discuss with your janitorial supplier as to which type of PH neutral liquid soaps would be appropriate for this product. Prolonged exposure to these harmful chemicals may lead to discolouration and/or corrosion of the stainless steel and are not covered under warranty.

Capacity:

- This dispenser has a 1.2 litre (40 US fl oz) capacity

Materials:

- Front: 20 gauge type 304 stainless steel, brushed finish
- Back: 20 gauge type 304 stainless steel, brushed finish
- Viewing Window: Lucite
- Nozzle: Plastic

Use a screwdriver or power drill to drill screws and back plate in the desired mounting surface and attach the dispenser. Please note that it is recommended that all installations be conducted by a qualified tradesperson. Please read and follow any additional installation guidelines provided with the products.

Maintenance: Normal preventative maintenance and cleaning will keep Frost products functioning properly and may extend normal product life. We recommend that units be periodically rinsed out with warm water to prevent soap build up that may hinder the performance of the valve. Products should be wiped down with a damp soft cloth periodically. Approved stainless steel cleaner may be used to clean scuffs or fingerprints on stainless surfaces. Do not use harsh detergents or chemical cleaners. For stainless steel please do not spray with any product containing bleach, acids, or chlorides, which can be found in many cleaning products such as toilet bowl cleaners. Use of these cleaning solutions may cause discolouration and if used for prolonged periods of time they can eat away at points in the stainless steel. If discolouration occurs, the use of an approved stainless steel cleaner and a firmer scrub pad, such as a Scotch Brite Pad #7447, may remove the markings. Wipe away any debris from the area and gently rub with the pad. Then spray the area with a stainless steel cleaner/polish and rinse and dry. Always wipe with the grain direction for stainless steel products. If a cleaning agent has begun to eat away at the steel on a unit then the unit will likely need to be replaced. The stainless steel that Frost Products uses is of high quality and stainless steel is resistant to rust. However, discolouration that appears to be rust can be caused by cleaning solutions and soaps mentioned above. It is important to discontinue use of any cleaning agent or soap if discolouration begins to occur. Clean off the discolouration as quickly as possible to avoid any permanent damage to the unit. Maintenance staff should be taught how to recognize the signs that they are not using the appropriate cleaning products and how to correctly maintain stainless steel items.

Warranty: If any product or part proves to be defective within 12 months from date of shipment from the factory it will be repaired or replaced without any charge including freight costs when authorized. Costs resulting from the installation or removal of defective products are not covered under this warranty. Discolouration to stainless steel parts resulting from exposure to harsh environmental and / or chemicals are not considered to be defects in workmanship or material and are not covered under warranty.

Specification Information

Product Code: 941FT

Product Name: Stock Series Mirrors, Fixed Tilt

Individual Carton UPC:

941-1630FT – 624622941512

941-1824FT – 624622941116

941-1830FT – 624622941215

941-1836FT – 624622941611

941-2430FT – 624622941413

941-2436FT – 624622941314

Individual Carton Shipping Dimensions:

941-1630FT – 45.7cm W x 81.3cm H x 12.7cm D (18" W x 32" H x 5" D)

941-1824FT – 50.8cm W x 66.0cm H x 12.7cm D (20" W x 26" H x 5" D)

941-1830FT – 50.8cm W x 81.3cm H x 12.7cm D (20" W x 32" H x 5" D)

941-1836FT – 50.8cm W x 96.5cm H x 12.7cm D (20" W x 38" H x 5" D)

941-2430FT – 66.0cm W x 81.3cm H x 12.7cm D (26" W x 32" H x 5" D)

941-2436FT – 66.0cm W x 96.5cm H x 12.7cm D (26" W x 38" H x 5" D)

Site Location: Frost code 941FT stock series mirrors are high quality and built to last. Typically, these mirrors are used in schools/universities, restaurants, malls, airports, office buildings, condominiums, fitness facilities, recreation centres, and other commercial properties. The high quality and durable construction make these mirrors an ideal choice for any barrier free location.

Features:

- Perfect for any barrier free location
- Vandal resistant concealed mounting
- Standard float glass (4 mm) with shock resistant primary back
- Stainless steel channel frame provides rigid assembly
- Full galvanized back panel

Materials:

- Channel frame: one piece 24 gauge stainless steel
- Fixed tilt frame: one piece 20 gauge stainless steel

Product Dimensions:

941-1630FT – 40.6cm W x 76.2cm H x 10.2cm D (16" W x 30" H x 4" D)

Installation Guidelines: Position bottom of the mirror 121.2cm (48") from the floor. Positions may vary depending on size, installation, and other requirements. Please note that it is recommended that all installations be conducted by a qualified tradesperson. Failure to do so may result in serious injury. Please read and follow any additional installation guidelines provided with the products.

Maintenance: Normal preventative maintenance and cleaning will keep Frost products functioning properly and may extend normal product life. Products should be wiped down with a damp soft cloth periodically. Approved stainless steel cleaner may be used to clean scuffs or fingerprints on stainless surfaces. Do not use harsh detergents or chemical cleaners. For general dirt and blemishes on painted steel or plastic use warm water and mild soap, or a general mild cleaning solution. When using any type of cleaning solution, spray onto a discrete area to test before full usage. After the cleaning agent is applied, wipe off with a clean soft cloth or sponge. For stainless steel please do not spray with any product containing bleach, acids, or chlorides, which can be found in many cleaning products such as toilet bowl cleaners. Use of these cleaning solutions may cause discolouration and if used for prolonged periods of time they can eat away at points in the stainless steel. If discolouration occurs, the use of an approved stainless steel cleaner and a firmer scrub pad, such as a Scotch Brite Pad #7447, may remove the markings. Wipe away any debris from the area and gently rub with the pad. Then spray the area with a stainless steel cleaner/polish and rinse and dry. Always wipe with the grain direction for stainless steel products. If a cleaning agent has begun to eat away at the steel on a unit then the unit will likely need to be replaced. For stainless steel soap dispensers please avoid use of ammonium-based soaps as these can also cause discolouration and/or damage to the dispensers. The stainless steel that Frost Products uses is of high quality and stainless steel is resistant to rust. However, discolouration that appears to be rust can be caused by cleaning solutions and soaps mentioned above. It is important to discontinue use of any cleaning agent or soap if discolouration begins to occur. Clean off the discolouration as quickly as possible to avoid any permanent damage to the unit. Maintenance staff should be taught how to recognize the signs that they are not using the appropriate cleaning products and how to correctly maintain stainless steel items.

Mirror Warranty: Frost Products Ltd is a leading manufacturer of mirrors for commercial and institutional installations. Specification Information

GS12GD5A type 1B, guaranteed against silver spoilage for 10 years. Note; on tempered mirrors the tempering process may produce slight distortion in mirror reflection when viewed from a distance. Mirror back plate consists of shock resistant primary back combined with galvanized second back plate and vandal resistant mounting system. All stainless steel face mirrors use 20 ga. XL buff stainless steel reflective surfaces. Cleaning of mirrors is very important. Solid soils such as paint, excess edge sealant, felt buttons, tape, or adhesives should be razor-bladed off. Cleaning solutions should be mild, and preferable not contain ammonia, vinegar, bleaches, or solvents. Cleaning solutions should be used to dampen the wiping cloth. Do not spray directly on mirror. Spraying directly on a mirror can allow material to run down and provide a source of edge contamination. Damaged caused by cleaning solutions are not covered under warranty.
